Psalm 9:11 Sing praises to the Lord...proclaim among the nations what God has done.

The students all climb into the truck to see what the inside is like.

New Hope School Opens in Lumbadzi

The feeding station and church in Lumbadzi have opened a Christian nursery school. There are 19 students under the care of two quality instructors. This affords preschool care, feeding and unique education opportunities to children in this area. The school provides employment for three staff members. We expect to see the school flourish and the number of students increase every month. This school is in partnership with the Bags of Hope program.

We returned to Malawi in January 2010, we were delighted to find the churches going strong and the work of God moving forward. In our absence there were many conferences and meetings held. The feeding stations continued to operate and the reports were encouraging. Our vision for the future remains true, we desire to assist the churches in Malawi with their dreams and visions. We are anticipating steady church growth in the midst of many challenges. God is in control!

We have already found ourselves in the role of provider, giving much food, clothing, school fees, bicycles, jobs, business loans, bibles, medicines and more. We have only been back a few months and yet God is faithful to meet our needs and the needs of so many others. *You are a major part of this ministry.* Let us be faithful to God and to each other as we labour together for the kingdom of God.

Be blessed, Wes, Lorrie Tembi and Karis
